PROFILE

Computer Science graduate currently completing the Applied A.I. Solutions Development program at George Brown, seeking a Data Analyst role at TD Bank. Experienced in translating raw data into actionable insights — built prospecting workflows and analyzed pipeline performance metrics that contributed to \$400K+ in new revenue, and completed Stanford's Machine Learning Specialization. Skilled in Power BI, Excel, SQL, and Python/JavaScript from academic and freelance projects.

HIGHLIGHTS OF QUALIFICATIONS

- Analyzed pipeline and campaign performance data (conversion rates, stage progression) to optimize prospecting strategy, contributing to \$400K+ in new revenue
- Completed Stanford's Machine Learning Specialization and Microsoft Azure AI Fundamentals certification
- Proficient in Power BI and Excel for data analysis and reporting; working knowledge of Python, SQL, and Git/GitHub
- Built full-lifecycle digital solutions (HTML/CSS/JavaScript) including ROI reporting for freelance clients
- Strong technical troubleshooting background (hardware/software/OS) from IT support and technician roles, translating to strong analytical problem-solving
- Bachelor of Arts in Computer Science with coursework in Data Structures, Algorithms, and Software Design

SKILLS

- Data & Analytics: Power BI, Excel, SQL, Python
- Web/Programming: JavaScript, HTML/CSS
- Version Control: Git/GitHub
- IT Support: Hardware/software troubleshooting, reimaging, Active Directory (basic), ticket-based support
- Operating Systems: Windows 10/11, basic Linux
- Networking: Basic TCP/IP, Wi-Fi troubleshooting
